## The Colonnade Speaks

Yes, a great deal has been said about chapel conduct. But, judging from the way things look now a lot more could be said.

Now, don't get the wrong idea. When you have a mild case of pneumonia, we know you have to cough and we know you get restless when your bus leaves at 11:10 and the speaker isn't through at 11:09.

But studying, writing notes, whispering, or just plan out-and-out natural voice conversations are something else.

Some of this could be remedied by changing chapel from Friday to Thursday. But it seems that if we want that change we're going to have to show that we can be good listeners instead of good conversationalists—in chapel, anyhow.

## Cross Section Of Election

Class officers will be elected Wednesday. And how much have you thought about who you're going to vote for?

Do you know the activities in which these people up for office have participated? Or will you just vote for the one who has the prettiest name? Or will you vote against the one who didn't speak to you the other day—how were you going to know she was near sighted? Or will you vote for the one with the best looking clothes?

All class officers are very important and we hope you won't forget that when Wednesday rolls around.

## What's Up, Doc?

Just how aware of you of current happenings? "Oh," you say, "I'm up on all the latest news. Mary saw Tom last weekend and Joan has returned Bob's pin and Rec elections came out—" I thought so. But you see, I mean other current happenings. For example, who did Harry S. Truman see last week and what do you know about the Italian elections?

It is strange that on our campus, in our exclusive community, we seem to forget that there are meetings, elections, conferences, taking place on the other side of the world that will influence our lives.

I can hear you now. "I do well to keep up with what happens in chemistry class and English class. How am I to keep up with what takes place all over the world?"

A fair question and it deserves a fair answer. Try reading the newspapers, listening to a news analysis for a few minutes instead of that jazz program. When you go to the movie watch the news reel instead of using that time for comments on the picture. And how about the magazines? Does it have to be that the only readers of Time are the girls taking social science?

We do so well in keeping up in what the girl across the hall does, why not try to do just as well with what the people around the world are doing?

## Emily Post Vs. The Jessies

Most of us usually think complacently that even if we don't live up to Emily Post by the letter we at least have fairly good manners. But do we really?

Let's suppose for a few minutes that a visitor who had never been to GSCW before arrived on campus. And let's suppose that he visited the Student Union. Wonder what he'd think of the shoving, pushing, and general nerve-racking procedure one must go through to get that long-looked-for letter. Wonder what his reactions would be to the screams of anguish as someone yells, "There went my foot."

Then too, let's suppose he made a visit to our dining halls, too. He might be a little surprised at the way "Southern charm" crops out.

The day of the Southern belle and her manners is past, yes. But, even if it is, do we have to drop all the fundamentals of good manners? It's a question we believe worth thinking over.

## Too Many Points?

Have you ever wondered why no student is allowed to have over seven activity points? In case you have, the reason is this:

If students were allowed to hold as many offices and belong to as many clubs as they could possibly cram into their time, some girls would probably never have any spare time and their studies would suffer, whereas others might never get a chance to fully develop their potentialities.

Therefore, the CGA point recording committee under the chairmanship of Betty Palmer, is planning a more effective program for the year. They are planning to keep more permanent and up-to-date records of each girl's activity and quality points. To help keep this, students will sign cards at the beginning of each quarter, telling their activities.

At every election, the points of each nominee will be checked. Clubs are asked to turn in the names of their officers, when they hold elections, to Miss Holt in Dean Adams' office. This will be a very important part of the point recording program.

The reason for checking quality points is to see that extra-curricular activities are not taking time away from girls who need to study.

One of his students said "Human" when he asked her what form of nature she studied over the holidays.

## Letter To The Editor

As Executive Secretary of the Georgia Music Educators' Association, I wish to express my thanks and appreciation to all of you who made the State Music Festival not only possible but a tremendous success. The officers and members of the Association had nothing but praise for all who helped; the visiting students were thrilled with the welcome and hospitality they received from you.

I have heard many reports of the fine job the housemothers and students did with the housing problem. These reports sound as if everyone did far more than had been asked. For all of this, we are indeed grateful. Without your wonderful help and cooperation we would never have been able to have so large a festival nor such a successful festival.

The GMEA thanks you; the Music Department thanks you, and I thank you.

MAX NOAH

## Dim Whims

Spring is back again. And if you don't believe it, just ask any "Jessie"—especially those who've acquired new shades of pink out at Lake Laurel. Or ask those who have terrific cases of spring fever plus term papers to write. Ah, yes, spring is definitely here.

What's this? GSCW has a new radio station? At last—It's WWWSE, and though it may not be listed officially in Mutual's little black book, it's well known to those who live in Ennis.

The Spectrum had a scoop, we hear—on Miss Strickland. Seems at last that the mystery of her car's name, Effie and T. P., is solved. It all came out with that "effective and thought-provoking" phrase in our new annual.

Spring fever has hit me, too, so I'll dash feverishly away until the next issue of The Colonnade.

## Paging Spectrum Staff

A bouquet of orchids to the Spectrum staff! Our '48 annual not only came out early, but it really received compliments with those colored pictures and that senior directory.

So congratulations, staff members. You did a wonderful job.

FRAN HOLST, with her history book—or is it social science?

## Two Tests Tomorrow!!! Which Shall I Study??

By FRAN HOLST

Two tests tomorrow—which shall I study? Social science is hard, but so is history. Speaking of history, did you know that I have made history? Only a few people know about it, but I feel it is time everyone should know. Well—I came to America with Columbus. Yes, Christopher Columbus. I know that's hard to believe because it isn't in the history books, but so much that has happened to me isn't.

Anyway, Columbus asked me, broken-hearted if I hadn't gone, as a personal favor, to go sailing After two months of sailing I with him. I could not refuse, wished in vain that I had not since he asked in such a nice way come.

On top of being sick to death of the sea, I was being proposed to day in and day out by "Chris." I tried to explain that I was in love with John Smith but "Chris" preferred not to listen. One day in the midst of another proposal we sighted land.

Yes, we sighted America, with its towering skyscraper and rumbling subways. We docked and went ashore. You would never guess what first greeted me. There in front of my very own eyes stood John Smith and Pocahontas in an embrace such as you will never see even in the

"Come on, Johnny, mother promised us Dentyne Chewing Gum if we only sat through it once!"

"Not even Frankie Swoonstra could make me miss Dentyne Chewing Gum! That nifty flavor really sends me—I mean it really does. And the way Dentyne helps keep my teeth white, I want to turn on the old smile all the time."

## Alpha Psi Play Has Unusual Features

"Our Hearts Were Young and Gay," to be presented in Russell Auditorium on April 29th and 30th, has several unusual features. In the first place, George Allen, who is playing the part of Leo, the young doctor, once knew the man whose part he is portraying. George met the doctor, now a well-known physician, in the Pre-Medical Society of which George was a member while at Harvard.

George, who graduated in January, says that it is difficult to picture the doctor as ever being Leo. George had a part in the production, "Our Town," which was given here several years ago. He is now working in the laboratory at the State Hospital, and plans to return to med school in September.

The original script and production book of "Our Hearts Were Young and Gay," used on the first night the play opened on Broadway, are being used in the production here.

Several changes have recently been made in the cast of the play. These are: Gretchen Waldrep, Madame Elise; Bill Johnson, admiral; Lennon Copeland, steward; Louis Andrews, window cleaner.

best movies. My John, in the arms of another woman. Mortified? I should say I was. My only excuse for not marrying Christopher Columbus gone up in smoke.

Why should so much sorrow have come to me? I could not understand, but being a very brave girl I set forth to find out as much as possible, about this wonderful new continent, and here I ended, at GSCW, trying my best to decide which subject to study. Ah, I know. It must be social science because, don't you think I know enough about history already?
